Total maximum possible payments that can be received

\$10,136

***Note:** Work Expense Reimbursements are contingent upon LandAjob receiving funds from the Social Security Administration (SSA.) LandAjob will process a reimbursement when a Beneficiary submits copies of pay stubs, which will allow us to verify that an individual has earned the necessary gross monthly income (before taxes.) We will also ask for copies of work-related expense receipts for the same time period. SSA requires that this documentation be provided in order to trigger the reimbursements to an assigned Ticket to Work Beneficiary through LandAjob.

We cannot process a reimbursement without this documentation.

We will provide you with instructions on how to submit pay stubs and work related expense receipts once your Individual Work Plan (IWP) has been completed and your Ticket to Work has been assigned to LandAjob.

2016 Levels

- The notations marked as \$840 above were equal to \$810 in 2016
- The notations marked as \$1,170 above were equal to \$1,130 in 2016
- The notations marked as \$1,950 above were equal to \$1,820 in 2016

****Eligibility** for the entire reimbursement schedule listed above can vary by Ticket to Work Beneficiary. Previous earnings, work with a state Vocational Rehabilitation Office or another Employment Network can affect the amount of reimbursements that are available. In order to prevent Social Security Administration/Ticket to Work overpayments, LandAjob will work with you to calculate where you begin receiving reimbursements.
